

## Project Management Framework and Context

### PMI Project Management Framework and Context

This activity aims at bringing the framework of project management into practice with a simple context, a dinner party.

You are the host of a dinner party and would like to invite few people over for a home cooked meal. Think of how you will make this dinner party a success and apply your thought processes to the Project management knowledge areas below.

Dinner party	
Scope	
Schedule	
Cost	
Quality	
Human Resources	
Communication	
Risk	
Procurement	
Stakeholders	

Now after you list all the activities you would normally do, take few minutes and think of what will you do to ensure all of those activities are **integrated** properly.
